

# ChangeGauge

## Change Management App

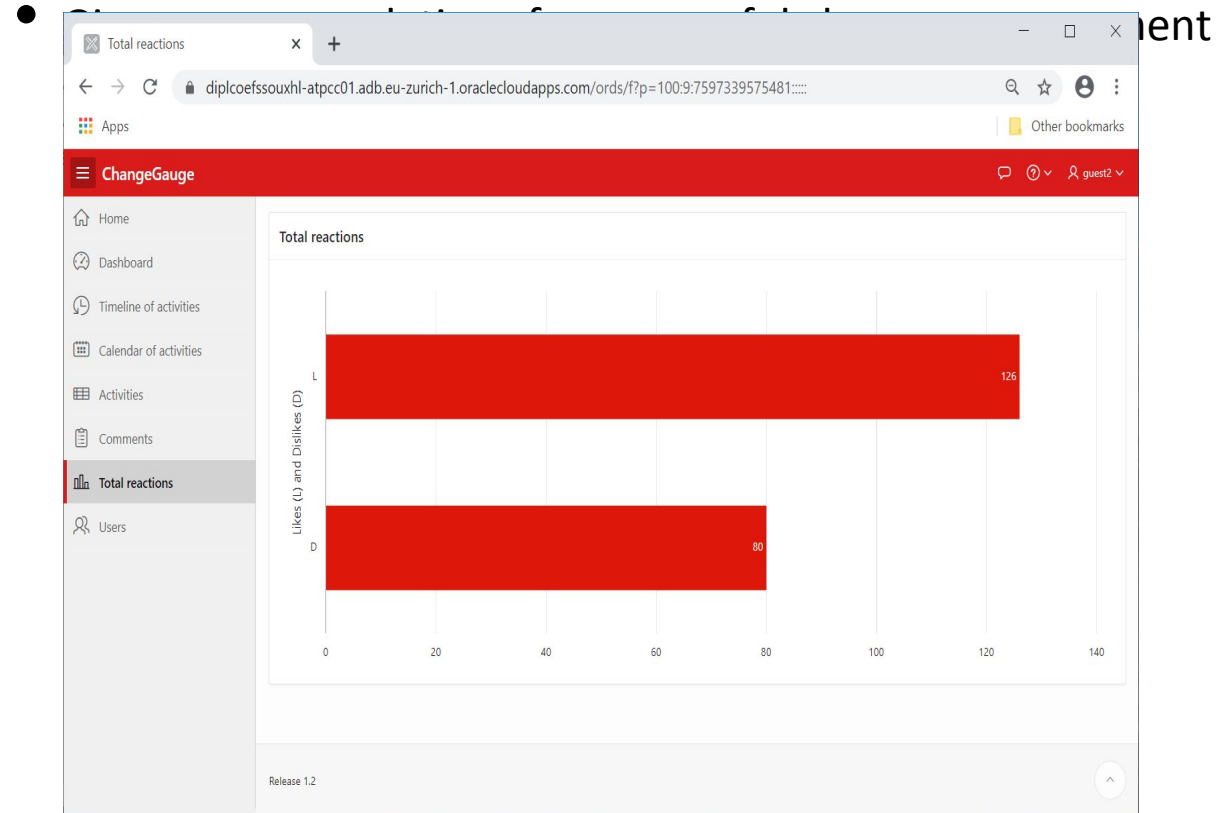

- Cloud native solution
- Works in an Oracle cloud
- Brings real-time analysis and direct feedback from the organization of a company in comparison with general information, targets and megatrends

# ChangeGauge

## Change Management App

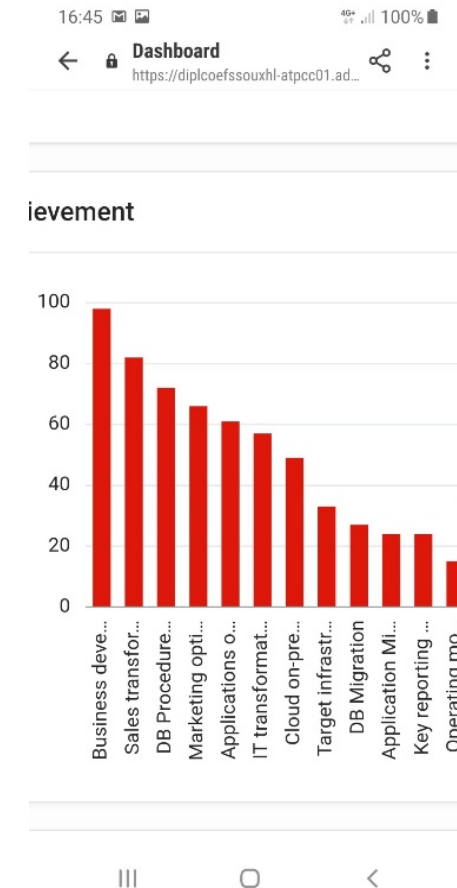

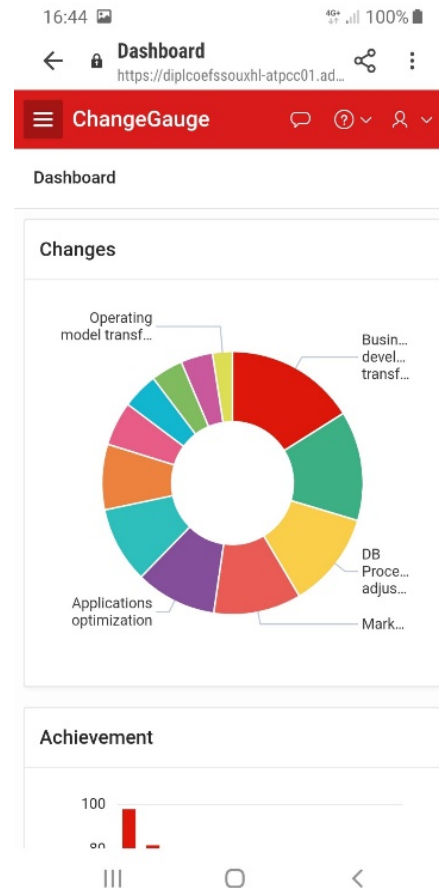

- Implementing aspects and requirements of agile matrices such as e.g. an agile maturity level measurement in the real time analysis
- Define and predict key processes of change within an established company
- Track the change ratios

# ChangeGauge

## Change Management App

- Integrated components in cloud
- On any smart mobile or desktop device
- Frontend running in any standard browser
- Backend running in cloud and integrated Oracle cloud database

# ChangeGauge

## Change Management App

- Modern cloud based structures and platforms 'as a service' (IaaS, PaaS, DaaS).
- No needs for installation at any local infrastructure
- No needs for complex systems engineering customizations
